

Straight Set Sashing & Cornerstones Chart!

I received a couple emails yesterday thanking me for listing the number of sashings and cornerstones needed for the [Little Monkey Quilt](#)! You are so welcome! In fact, this is a good opportunity for me to upload a little chart here to help you with future quilts. I did a chart earlier on for [“on point” sashing and cornerstones](#) that I find very handy, so here is another one to add to the [tips & tutorials](#) section!

This is the kind of thing that I really like to keep close at hand. Nothing is worse than cutting a bunch of sashings only to find you either didn't cut enough, or---Uhoh! You cut too many, and now what are you going to do with those!?! So I hope you can find this useful for reference

There are a few more sizes I'd like to add, but for now, this will do!
