

Pfeffernusse Class Supply List!

© Bonnie K Hunter & Quiltville.com 2012

Quilt Size: 84-1/2" square

Block Size 12"

Please Note: This is a "Book Required" class. The pattern is found in my book String Fling and may be purchased through your local shop, or ordered through my website at <http://quiltville.com>. I will also bring books to class for purchase.

In addition to the basic requirements of sewing machine with 1/4" foot, pins, needles, thread, seam ripper, scissors, rotary cutter, mat and ruler please bring the following:

Optional: **Companion Angle Ruler** for quarter-square triangle units.

Foundation Paper: Any paper can be used! I use phone book paper as my foundation for string piecing as it tears easily and is readily available. Unprinted news print type paper or doodle pads from the dollar store also work well. Cut a handful of 7.5" squares for string block foundations from paper before coming to class.

Fabric Requirements

- 3 yards of brown scraps and strings in a wide variety of spicy brown hues from light to dark for string blocks.
- 4 yards of neutral/light scraps and strings in a wide variety of shades of white to cream to beige for hour glass units and string blocks.

NOTE all of these fabrics can have other colors playing on them. There may be red hearts on a white background, but it will still read as neutral/light. There may be green leaves and pink flowers on a cream background, but it will still read as light. Don't think that these have to be tone-on-tone! Look at the background color of the fabric and let it play!

- 2 1/2 yards of red scraps for the hourglass blocks.
- 1/2 yard tan stripe for inner border.
- 1 1/4 yard brown stripe for outer border.

NOTE!

This is a 6 hour class! We will be working on the blocks in class, you likely won't need to bring your border and binding fabric with you! Just bring enough to keep you busy for 6 hours :c)

Come with this amount ready for class:

Strings: Random scraps in widths from 3/4" up to 2" in browns and neutrals. We can also trade with each other for more variety. Please cut strips ahead of time so we don't use class time to do so. Strips can taper and angle, they don't need to be precise measurements--string piecing is the ultimate freedom!

Hourglass Units:

I will be demonstrating using the **Companion Angle** ruler for making the quarter square triangle units for the quilt from 2" strips. For this technique come with *some* 2" strips in red and neutrals. You will need a **Companion Angle** ruler if you want to use this method!

The alternative method of using 4-1/4" squares is optional. If you prefer this method, don't cut 2" strips ;c) Plan on cutting some red and neutral 4-1/4" squares instead.

Most of all ---come and have some fun sewing up the scraps!

If you have any questions do not hesitate to contact me at Quiltville@gmail.com
